Help Wilner Cornely Fight Pancreatic Cancer

Written by Disciples Today

One year ago, Wilner Cornely was diagnosed with stage IV pancreatic cancer. Wilner and his wife Chantal have served God for over 30 years in the full time ministry, helping churches all around the world: Boston, Paris, Miami, Haiti, Jamaica, New York, Johannesburg, Madagascar, Mauritius, Phoenix, Chicago, and Detroit.

Wilner is still fighting this ugly disease. Although it has been very challenging, Wilner has never stopped serving God and his church. He has continued to inspire us and has challenged us to never be lacking in zeal, no matter what.

Many disciples have been praying and looking for ways to help. You can help by donating at this site for Wilner's medical and living expenses. Please also spread the word by sharing this on Facebook and other social media.

South Asia Tsunami Revisited

Written by HOPE worldwide

December 26, 2014 - Today marks the 10th anniversary of the worst tsunami disaster in human history. More than 228,000 people died in 14 countries in Southeast Asia and South Asia, and as far away as Africa.

In all, nearly 2.5 million people were affected, losing their families, their homes, and their means of making even a meager living. Many of the people were already vulnerable and living in desperate poverty. Households headed by women particularly were pushed deeper into poverty. When the tsunami was finished, it was the most destructive disaster of its kind in history.

During the past ten years, thanks to a global response to this disaster, HOPE *worldwide* has restored livelihoods, provided education and training opportunities, established schools and rebuilt communities. Watch this video to see how your support is changing lives and bringing the light of hope ten years later.
